Based on Weekly Repayments.

### What are Comparison Rates?

New Comparison Rate Legislation became effective from the 1<sup>st</sup> July 03.

A comparison rate is an effective interest rate for any home or personal loan product, excluding continuing lines of credit. The comparison rate incorporates the annual percentage rate and any ascertainable fees, for example; Application, Valuation, Solicitors, Monthly or Annual fees; Government and contingent (redraw etc) fees are excluded.

The legislation has been introduced so that consumers can fairly assess competitor interest rates.
